

Shortcuts Store Urashima

Overwhelmingly large

It has been two years since this project started.
The number of shortcuts, which was only a little over 300 at first
The number is still increasing.
The number is still growing.
This update is not
It's not just an update.

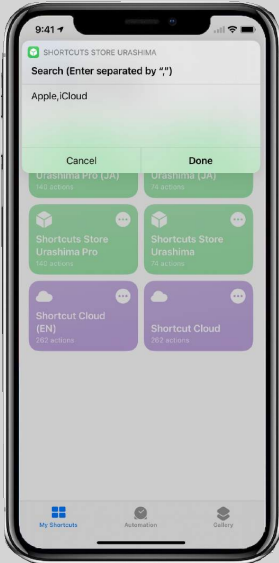

All the mechanisms have been redesigned for Urashima.
The whole system has been redesigned for Urashima.

The Miracle of \\\\\\\\\

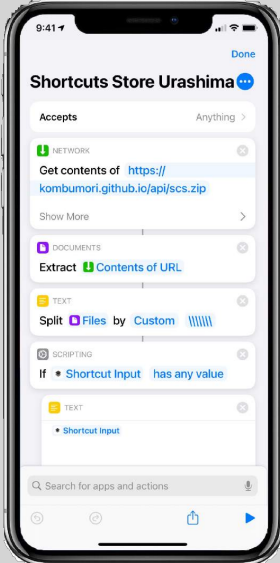

In order to make it easier to understand, we have changed the database from the one using the Lady Cassia and Lady Cassia to the one utilizing backslashes.

Fast and speedy

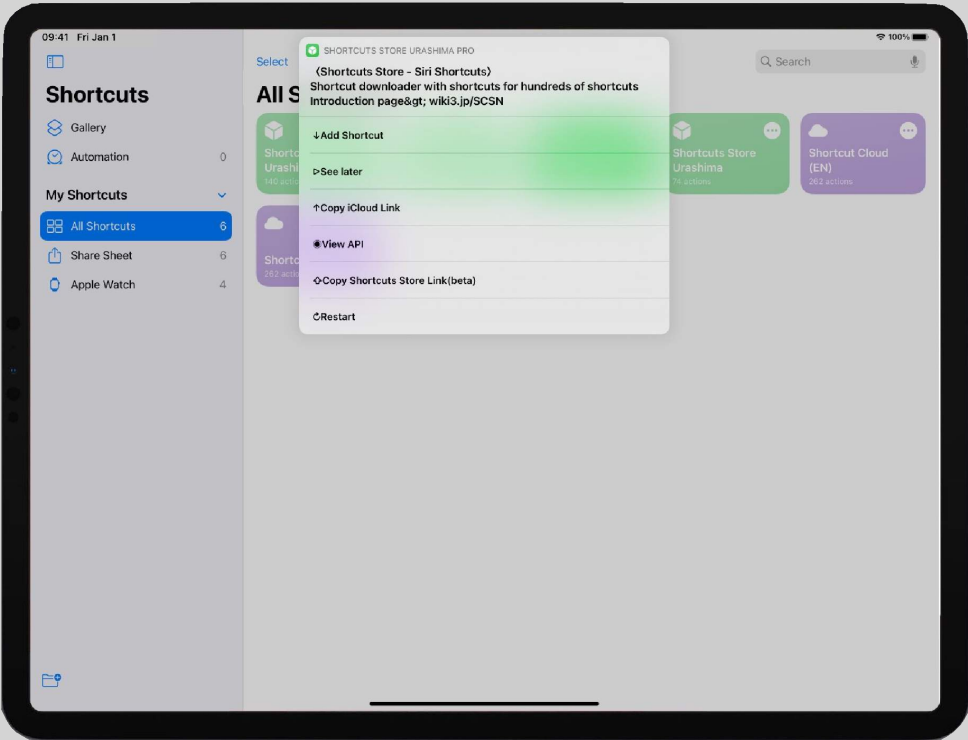

To increase speed and shorten time, the "Search" function has been added. Enjoy a more powerful search.

And of course, safety and stability.

In order to make it more secure and stable, we uploaded all the databases to GitHub and changed the way we load them.

Shortcuts Store Urashima Pro
